2. All present school records including attendance, discipline, academics, test data, etc., shall be transferred from the school of origin to the newly assigned school. These records shall apply to grading and all other District policies and procedures.
3. In an effort to be a family-friendly employer, students of District employees who either live in or outside of the District will be granted intra-district transfer if application deadlines are met. Transportation will be the responsibility of the employee.
4. Transportation will be the responsibility of the parent/guardian unless a student is transferred as a result of an Individual Education Plans (IEP) team decision or District assignment of a student to a specific program.

5. The principal of the attending and receiving schools or their designee shall consider the merits of requests for transfer and recommend approval or denial to the Assistant Superintendent.
6. The Assistant Superintendent shall approve or reject the recommendation and will inform the principals and the parent/guardian of the decision.
7. Appeals regarding transfer decisions shall be made to the Assistant Superintendent.
8. Student transfers will be for the duration of the school year unless exceptional circumstances require the transfer.
9. Students who are officially transferred under this Policy and Regulation and have successfully completed the first year of transfer shall be considered continuous students. They shall not have to reapply for transfer in years succeeding the initial transfer. Transfers of students who do not successfully complete the first year of transfer due to poor attendance, behavioral issues or academic performance may be revoked upon recommendation by the principal and decision of the Assistant Superintendent.

#### C. STUDENT TRANSFER FOR EDUCATIONAL CHOICE

1. Parents/guardians or staff may request a student transfer to a school other than a student's home attendance area. Interested parents/guardians and staff must submit their request in accordance with District timelines. Transportation will be the responsibility of the parents/guardians.
2. Students, parents/guardians interested in an intra-district transfer for educational choice are encouraged to consult with the school principal in the attendance area to which the student is assigned to discuss the reason for the transfer request.
3. Elementary transfers will be made with the following guidelines in mind for neighborhood elementary schools. (Guidelines for enrollment at Hillcrest Community School are covered in a separate section.)
  - a. Up to but no more than 10 students per grade per year at each school may transfer to other schools in the District.
  - b. A "receiving" school may accept up to 4 students per grade per year from an individual school in the district.
  - c. Incoming intra-district transfers should not exceed 93% of a grade level or school capacity, whichever is reached first, leaving room for students who move into the District during the summer and fall.

D. STUDENT TRANSFER FOR SPECIAL NEEDS

The statement must include: 1) what the psychological condition is, 2) what treatment is required or currently being provided, and 3) why one educational environment opposed to another is required.

2. Special Education

Individual Education Plans (IEP) dictate type and location of services. Transportation will be provided as determined by the IEP team.

3. Specific Programs

Students who qualify for special programs such as English as a Second Language may be assigned to another school for all or part of their education program.

  - a. Siblings – Preference if student has siblings currently attending Hillcrest. However, the sibling preference is void when the limit in Section II. C.3.a-c is reached. Specifically, no more than 10 siblings may enroll in an incoming kindergarten class. If more than 10 siblings request enrollment in kindergarten, a lottery will be used to determine selection.
  - b. Geographic – Preference if applying from a home attendance area that is a Title I school. Limits in Section II. C.3.a-c applies.
  - c. Impact on home attendance area school – Up to 10 students per grade level at each neighborhood school may transfer to Hillcrest Community School, per available room.

## G. STUDENT TRANSFERS FOR OTHER REASONS

1. Assignment by administration to other schools may be conducted for the purpose of preventing pupil-teacher ratio overloading from exceeding maximum limits, assignment of kindergarten students by administration, and for the most efficient use of staff and facilities.   - New enrollees since the last day of school
  - Volunteers
  - Only child in family, to avoid separating siblings
  - Children not previously transferred
  - Geographic proximity to receiving school.
2. Childcare located in an attendance area outside of a student's neighborhood school.

  - b. The transfer request is subject to available room and limits outlined in Section II. C.3.a-c.

3. If a student has lived in an attendance area and moves to another attendance area in Bloomington during the school year, the student shall be allowed to continue to attend the school of past attendance. The parent/guardian must contact their home school principal. Transportation will be the responsibility of the Parent/guardian unless the student is enrolled in a District wide program.
4. If a student has attended school in Bloomington for one year or more and moves outside the District, the student shall be allowed to complete his/her education program at the school of past attendance.

Parents/guardians who do not have access to the internet should work with their home attendance area school office to complete request.
2. Deadline for submitting transfer requests for the following school year will generally be December 1. Schools will notify parents of this timeline. Parents/guardians will be notified of the transfer decision within approximately two weeks following the transfer deadline.

4. When the number of transfer requests exceeds the number of seats available, a lottery will be used.
5. When the available seats for transfers have been filled, a school will be closed to further transfer requests. Student transfers that are not granted within the transfer window will be placed on a waiting list, which will be reviewed in May prior to the start of the school year in the event additional seats have become available.

9. The District will annually collect data on the reasons parents/guardians cite for choosing a school outside of their home attendance area. Data will be used to make program improvements and/or revise transfer policies.
